

# Blue Glory Vine

## *Thunbergia battiscombei*

'Blue Glory' is a weak-stemmed vine that grows to 2-3' tall. It does not climb, but typically scrambles over and through nearby perennials and shrubs. Plants die to the ground in winter in USDA Zones 8 and 9, but usually will come back in spring.

**Type:** tropical perennial evergreen vine

**USDA hardiness zones:** 8 through 12

**Uses:** ground cover; border; hanging basket; container

**Origin:** not native to Florida

**Height:** 2 to 3 feet      **Spread:** 3 to 6 feet

**Plant spacing:** 4 to 6 feet

**Light requirement:** full sun to part shade

**Soil tolerances:** sand; loam; clay; slightly acidic; slightly alkaline; wet to well-drained

**Drought tolerance:** moderate

**Salt tolerances:** unknown

**Invasive potential:** low to none

**Pest resistance:** No serious insect or disease problems
