

Suggested Plant Species for Green Walls

Name: *Aeschynanthus parvifolius* (Lipstick plant)
Family: Gesneriaceae
Biodiversity: Attracts nectar feeding birds.

Name: *Aglonema costatum* (Chinese evergreen)
Family: Araceae
Biodiversity: -

Name: *Asparagus densiflorus* 'Sprengeri'
(Sprengeri fern)
Family: Asparagaceae
Biodiversity: Attracts bees, small insect pollinators.

Name: *Bolbitis heteroclita*
Family: Lomariopsidaceae
Biodiversity: -

Name: *Caladium lindenii*
Family: Araceae
Biodiversity: -

Name: *Dianella ensifolia* (Common Dianella)
Family: Xanthorrhoeaceae
Biodiversity: Attracts bees, small insect pollinators, birds.

Name: *Dischidia nummularia* (Button leafer Dishidia)
Family: Apocynaceae
Biodiversity: Attracts bees, small insect pollinators.

Name: *Dischidia ovata* (a.k.a. Watermelon Dishidia)
Family: Apocynaceae
Biodiversity: Attracts bees, small insect pollinators.

Name: *Dischidia ruscifolia* (a.k.a. Million hearts)
Family: Apocynaceae
Biodiversity: Attracts bees, small insect pollinators.

Name: *Drynaria quercifolia* (Oak leaf fern)
Family: Polypodiaceae
Biodiversity: -

Name: *Epiphyllum anguliger*
Family: Cactaceae
Biodiversity: Attracts Moths and birds.

Name: *Epiphyllum guatemalense*
Family: Cactaceae
Biodiversity: Attracts Moths and birds.

Name: *Episcia fimbriata* 'Blue Heaven'

Family: Gesneriaceae

Biodiversity: Attracts nectar feeding birds.

Name: *Episcia cupreata* 'Cleopatra' Easterbrook

Family: Gesneriaceae

Biodiversity: Attracts nectar feeding birds.

Name: *Hoya lacunose*

Family: Apocynaceae

Biodiversity: Attracts moths and butterflies.

Name: *Hoya multiflora* (shooting stars)

Family: Apocynaceae

Biodiversity: Attracts moths and butterflies.

Name: *Hoya obscura*

Family: Apocynaceae

Biodiversity: Attracts moths and butterflies.

Name: *Hoya verticillata*

Family: Apocynaceae

Biodiversity: Attracts moths and butterflies.

Name: *Dieffenbachia amoena* (Besar Putih)

Family: Araceae

Biodiversity: -

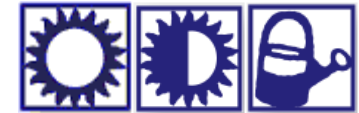

Copyright © NParks Flora&FaunaWeb

Name: *Xiphidium caeruleum*

Family: Haemodoraceae

Biodiversity: -

Copyright © NParks Flora&FaunaWeb

Name: *Schefflera arboricola* (Dwarf Umbrella Tree)

Family: Araliaceae

Biodiversity: -

Copyright © NParks Flora&FaunaWeb

Name: *Nephrolepis falcata* (fishtail fern)

Family: Oleandraceae

Biodiversity: -

Copyright © NParks Flora&FaunaWeb

Name: *Strobilanthes dyerianus* (Persian shield)

Family: Acanthaceae

Biodiversity: -

Name: *Peperomia scanden* 'variegata'
Family: Piperaceae
Biodiversity: -

Name: *Philodendron erubescens* 'Gold'
Family: Araceae
Biodiversity: -

Name: *Aristolochia acuminata* (Indian Birthwort)
Family: Aristolochiaceae
Biodiversity: -

Name: *Antigonon leptopus* 'Album'
Family: Polygonaceae
Biodiversity: -

Name: *Bauhinia kockiana* (Kock's Bauhinia)
Family: Leguminosae
Biodiversity: -

Legend:

Prefers full sun

Prefers semi-shade

Prefers full shade

Requires moderate amount of water

Prefers little water

Requires abundant water
