

KISIMA FARM FLORA DIVERSITY REGISTER REPORT.

(FEBRUARY TO MAY 2022)

Compiled by: Kisima Forestry

Cover page

Plant photographs Top: *Rubus niveus* from left: *Lantana trifolia*, *Gladiolus dalenii*, *Solanum terminale*, *Berberis holstii*, (Helmeted Chameleon) *Trioceros hoehnelii* on *Dodonaea viscosa* var. *angustifolia* leaf and below right *Cyathula polycephala*

Foreword

The survey was carried out at Kisima Farm Limited from February to May 2022. The main aim of the survey was to document plant species diversity in the farm. The survey entailed walking around different areas in the farm while recording plant species. Plant specimens were collected, pressed, and stored. Plant photographs were also taken to help in identification as well as GPS coordinates for surveyed areas. The survey results will be helpful in future comparative studies and monitoring.

Some of the plant species could also find use in their medicinal and aesthetic values. It also needs to be noted that some of the species are invasive and efforts are being made to eradicate them. Others are weeds hence no need for propagation efforts. This survey will go a long way in our efforts for propagating a wide range of species and improving our tree nursery to being commercial.

Objectives

The objectives of the survey were to:

- Carry out a comprehensive plant diversity survey
- Identify species of conservation concern
- Establish baseline data for future reference and monitoring.
- Form a basis for planning on species to propagate for their potential commercial value
- Collect herbarium specimens and photographs for future reference
- Produce an initial report in compilation of Kisima Farm biodiversity checklist

Methodology

Plant diversity documentation was done through intensive surveys in different forest compartments in the farm. Plant specimens were collected, pressed, and stored as a record of the flora. Species of conservation concern which include rare and threatened plants were identified using information obtained from International Union for Conservation of Nature (IUCN) and the Convention on International Trade in Endangered Species (CITES) databases. GPS coordinates were recorded to mark surveyed areas. Plant photos were also taken for reference.

Results

Species diversity and composition

The survey recorded a total of 258 plant species belonging to 67 families. Of the total species recorded, Asteraceae (Daisy family) had the highest plant diversity with 40 species representing 15.5%, followed by 33 species of Poaceae (Grass family) 12.8% and the Fabaceae (Legume family) having 8.9% with 23 species. Based on the survey, 12 of the recorded plant species were exotic and one was an invasive species. The species were recorded in four different surveyed areas shown in the table below.

AREA	CO-ORDINATES RECORDED
Sorgi /Mount Kenya Horse camp area	N 0.062389 E 37.40556
Misri camp towards compartment 39	N 0.112833 E 37.41383
Dairy	N 0.118389 E 37.41197
Riparian area (Charlie's dam)	N 0.118306 E 37.41197

Floral habit diversity (Appendix II)

Habit	No. of species	Percentage
Herb	165	64%
Shrub	37	14.3%

Tree	35	13.6%
Climber	21	8.1%

Species of conservation concern

Plant species included in IUCN Red list and CITES database were considered in the survey.

IUCN Red listed species:

Family	Species	IUCN status
Rosaceae	<i>Prunus africana</i> (Hook.f.) Kalkman	Vulnerable (VU)
Verbenaceae	<i>Vitex keniensis</i> Turrill	Endangered (EN)

CITES species

Family	Species	CITES category
Asphodelaceae	<i>Aloe? ellenbeckii</i> Berger	Cites II
Asphodelaceae	<i>Aloe lateritia</i> Engl. var. <i>lateritia</i>	Cites II
Asphodelaceae	<i>Aloe nyeriensis</i> Christian	Cites II
Asphodelaceae	<i>Aloe secundiflora</i> Engl. var. <i>secundiflora</i>	Cites II
Rosaceae	<i>Prunus africana</i> (Hook.f.) Kalkman	Cites II
Santalaceae	<i>Osyris lanceolata</i> Hochst. & Steud.	Cites II

Conclusion

Plant diversity was high in the surveyed areas, and this is an indication of an area rich in biodiversity. Subsequent surveys will be important in updating the plant diversity register, considering the survey was done the dry season, as well as compiling a biodiversity register.

Recommendations

- 1.** More flora surveys need to be conducted in the remaining biodiversity hotspot areas to get more data on the plant species present in Kisima farm. The report should subsequently include Kisima's fauna to capture biodiversity.
- 2.** Document ethnobotanical information on all species in Kisima's flora diversity checklist
- 3.** Control of invasive species from further invasions to the undisturbed natural vegetation.
- 4.** Introduction of more indigenous plants native to the area to the farm to increase plant diversity as well as fauna.
- 5.** Introduction of indigenous threatened tree species endemic to Mt. Kenya region will be very helpful for their conservation. (Appendix 1)
- 6.** Establish a mini herbarium for the farm that will be used as a reference for future plant identification.

APPENDIX I

List of threatened tree species in Mt. Kenya region

No.	Family	Species	Habit	Comment/iucn status
1	Annonaceae	<i>Uvariodendron anisatum</i>	Tree	Vulnerable
2	Araliaceae	<i>Polyscias kikuyuensis</i>	Tree	Near Threatened
3	Celastraceae	<i>Gymnosporia keniensis</i>	Tree	Endangered
4	Lamiaceae	<i>Premna maxima</i>	Tree	Endangered
5	Lamiaceae	<i>Vitex keniensis</i>	Tree	Endangered
6	Lauraceae	<i>Ocotea kenyensis</i>	Tree	Vulnerable
7	Rosaceae	<i>Prunus africana</i>	Tree	Vulnerable
8	Simaroubaceae	<i>Brucea macrocarpa</i>	Tree	Endangered

APPENDIX II

Plant checklist of Kisima farm

No.	Family	Species	habit	Comment/iucn status
1	Acanthaceae	<i>Dyschoriste radicans</i> Nees	Herb	
2	Acanthaceae	<i>Justicia diclipteroides</i> Lindau	Herb	
3	Acanthaceae	<i>Thunbergia alata</i> Bojer ex Sims	Climber	
4	Acanthaceae	<i>Thunbergia fischeri</i> Engl.	Herb	
5	Amaranthaceae	<i>Achyranthes aspera</i> L.	Herb	
6	Amaranthaceae	<i>Amaranthus hybridus</i> L.	Herb	Naturalized/weed
7	Amaranthaceae	<i>Cyathula polycephala</i> Baker	Herb	
8	Amaryllidaceae	<i>Agapanthus orientalis</i> Willd.	Herb	Exotic
9	Anacardiaceae	<i>Searsia crenata</i> (Thunb.) Moffett	Shrub	
10	Anacardiaceae	<i>Searsia pyroides</i> (Burch.) Moffett var. <i>pyroides</i>	Shrub	
11	Apiaceae	<i>Agrocharis incognita</i> (Norman) Heyw. & Jury	Herb	
12	Apiaceae	<i>Agrocharis melanantha</i> Hochst.	Herb	
13	Apiaceae	<i>Apium leptophyllum</i> (Pers.) Benth.	Herb	
14	Apiaceae	<i>Heteromorpha trifoliata</i> (H.L.Wendl.) Eckl. & Zeyh.	Shrub	
15	Apiaceae	<i>Hydrocotyle mannii</i> Hook.f. var. <i>mannii</i>	Herb	
16	Apiaceae	<i>Oenanthe palustris</i> (Chiov.) Norman	Herb	
17	Apiaceae	<i>Torilis arvensis</i> (Huds.) Link var. <i>heterophylla</i> (Guss.) Thell.	Herb	Naturalized/weed

18	Apocynaceae	<i>Cynanchum altiscandens</i> K.Schum.	Climber	
19	Apocynaceae	<i>Gomphocarpus physocarpus</i> E.Mey.	Herb	
20	Araliaceae	<i>Cussonia holstii</i> Engl. var. <i>holstii</i>	Tree	
21	Araliaceae	<i>Cussonia spicata</i> Thunb.	Tree	
22	Asparagaceae	<i>Asparagus africanus</i> Lam.	Climber	
23	Asparagaceae	<i>Asparagus</i> sp.	Climber	
24	Asphodelaceae	<i>Aloe ?ellenbeckii</i> Berger	Herb	Cites II
25	Asphodelaceae	<i>Aloe lateritia</i> Engl. var. <i>lateritia</i>	Herb	Cites II
26	Asphodelaceae	<i>Aloe nyeriensis</i> Christian	Shrub	Cites II
27	Asphodelaceae	<i>Aloe secundiflora</i> Engl. var. <i>secundiflora</i>	Herb	Cites II
28	Asphodelaceae	<i>Trachyandra saltii</i> (Baker) Oberm. var. <i>saltii</i>	Herb	
29	Aspleniaceae	<i>Asplenium monanthes</i> L.	Herb	
30	Asteraceae	<i>Acmella calirrhiza</i> Delile	Herb	
31	Asteraceae	<i>Artemisia afra</i> Jacq. ex Willd.	Shrub	
32	Asteraceae	<i>Aspilia mossambicensis</i> (Oliv.) Wild	Shrub	
33	Asteraceae	<i>Bidens pilosa</i> L.	Herb	Naturalized/weed
34	Asteraceae	<i>Bothriocline fusca</i> (S.Moore) M.Gilbert	Shrub	
35	Asteraceae	<i>Carduus nyassanus</i> (S.Moore) R.E.Fr.	Herb	
36	Asteraceae	<i>Carduus schimperi</i> Sch.Bip.	Herb	
37	Asteraceae	<i>Cineraria deltoidea</i> Sond.	Herb	
38	Asteraceae	<i>Cirsium vulgare</i> (Savi) Ten.	Herb	Naturalized/weed
39	Asteraceae	<i>Conyza bonariensis</i> (L.) Cronquist	Herb	Naturalized/weed
40	Asteraceae	<i>Conyza schimperi</i> Sch.Bip. ex A.Rich. ssp. <i>longepapposa</i> R.E.Fr.	Herb	
41	Asteraceae	<i>Conyza</i> sp.	Herb	
42	Asteraceae	<i>Conyza steudelii</i> Sch.Bip. ex A.Rich.	Herb	
43	Asteraceae	<i>Cotula abyssinica</i> Sch.Bip.	Herb	
44	Asteraceae	<i>Crassocephalum crepidioides</i> (Benth.) S.Moore	Herb	
45	Asteraceae	<i>Dichrocephala chrysanthemifolia</i> DC.	Herb	
46	Asteraceae	<i>Dichrocephala integrifolia</i> (L.f.) Kuntze ssp. <i>integrifolia</i>	Herb	Naturalized/weed
47	Asteraceae	<i>Euryops chrysanthemoides</i> (DC.) B.Nord.	Shrub	
48	Asteraceae	<i>Galinsoga parviflora</i> Cav.	Herb	Naturalized/weed
49	Asteraceae	<i>Galinsoga quadriradiata</i> Ruiz & Pav.	Herb	Naturalized/weed
50	Asteraceae	<i>Gerbera</i> sp.	Herb	

51	Asteraceae	<i>Gnaphalium unionis</i> Sch.Bip. ex Oliv. & Hiern	Herb	
52	Asteraceae	<i>Haplocarpha schimperi</i> (Sch.Bip.) Beauverd	Herb	
53	Asteraceae	<i>Helichrysum foetidum</i> (L.) Cass.	Herb	
54	Asteraceae	<i>Helichrysum forskahlii</i> (J.F.Gmel.) Hilliard & B.L.Bur	Herb	
55	Asteraceae	<i>Helichrysum globosum</i> Sch.Bip.	Herb	
56	Asteraceae	<i>Helichrysum nudifolium</i> (L.) Less.	Herb	
57	Asteraceae	<i>Helichrysum odoratissimum</i> (L.) Sweet	Herb	
58	Asteraceae	<i>Helichrysum schimperi</i> (Sch.Bip.) Moeser	Herb	
59	Asteraceae	<i>Hypochaeris glabra</i> L.	Herb	
60	Asteraceae	<i>Laggera alata</i> (D.Don) Sch.Bip. ex Oliv.	Herb	
61	Asteraceae	<i>Pseudognaphalium luteo-album</i> (L.) Hilliard & B.L.Burtt	Herb	
62	Asteraceae	<i>Psiadia punctulata</i> (DC.) Vatke	Shrub
