

June 17, 2019 GHA seed fund list

When requesting seeds from Mel Grice, if you do not give him your snail mail address, you will **NOT** receive any seeds. GHA is not certain of your address unless you tell Mel what it is each and every time you order seeds.

Mel Grice <[melsgrice@gmail.com](mailto:melsgrice@gmail.com)>

Because there is usually a big rush for ordering seeds when the **CrossWords** newsletter is sent, you must give at least 10 substitutions. Often Mel receives a couple dozen seeds from one cross, so supplies could be limited.

Keep in mind that the request limit is five (5) packets each time **CrossWords** is mailed. Since GHA is absorbing the costs of mailing, please make no more than 3 requests a year with a maximum of 5 packets (but send 10 substitute requests per time).

### **Mary Schaeffer, USA**

MS 18-01 *Sinningia* 'Butter and Cream' x self or with *tubiflora* (Open pollinated)

### **Jay Sespico, USA**

JS 17-01 *Sinningia speciosa* 'Bristol's Good Morning' x *Sinningia speciosa* 'Pedra Lisa' — This hybrid yielded large reds, blues, and pinks that usually peloric and of good flower size. Many had spots.  
JS 17-02 *Sinningia speciosa* 'Sentsational Pepperpot' x *Sinningia speciosa* 'Pedra Lisa' — In this cross S. 'Pedra Lisa' proved dominant. I got many combinations of lavender and white nodding flowers, some with 6 petals and some were pleasantly fragrant.  
JS 17-03 S. 'Rock Royalty' x (*Sinningia speciosa* 'Sentsational Pepperpot' x *Sinningia speciosa* 'Thad's Gas Planet') — I got many clear red and dark purple flowers that had shallow throats and wide corollas and lighter throats. Incidentally, S. 'Rock Royalty' is a cross of (SPP x SPL). It is very dark purple with wavy petals.  
JS 17-04 *Sinningia speciosa* 'Rock Presence' (a 6 lobed lavender) x *Sinningia speciosa* 'Bristol's Good Morning' — I am hoping for good sized red nodding flowers with fragrance.  
JS 17-05 (*Sinningia speciosa* 'Bristol's Good Morning' x *Sinningia speciosa* 'Pedra Lisa') x (*Sinningia speciosa* 'Bristol's Good Morning' x *Sinningia speciosa* 'Pedra Lisa') — This is a sibling cross between a large white and a soft lavender seedling. They both had nodding flowers of good size and were slightly fragrant.  
JS 17-06 (*Sinningia speciosa* 'Bristol's Good Morning' x *Sinningia speciosa* 'Pedra Lisa') x (*Sinningia speciosa* 'Bristol's Good Morning' x *Sinningia speciosa* 'Thad's Gas Planet') — This was a cross between a dark red and a 6 lobed blue flower. Hoping for a floriferous plant with red nodding flowers of good size.  
JS 17-07 (*Sinningia speciosa* 'Bristol's Good Morning' x *Sinningia speciosa* 'Thad's Gas Planet') x (*Sinningia speciosa* 'Bristol's Good Morning' x *Sinningia speciosa* 'Pedra Lisa') — A light nodding lavender crossed onto a dark peloric red.  
JS 17-08 (*Sinningia speciosa* 'Sentsational Pepperpot' x *Sinningia speciosa* 'Pedra Lisa') x (*Sinningia speciosa* 'Bristol's Good Morning' x *Sinningia speciosa* 'Pedra Lisa') — I got a very compact seedling with great veining in the foliage and crossed it onto a large nodding white flower. I'm hoping for large white flowers on a compact plant with great foliage.  
JS 17-09 (*Sinningia speciosa* 'Sentsational Pepperpot' x *Sinningia speciosa* 'Pedra Lisa') x (*Sinningia speciosa* 'Bristol's Good Morning' x *Sinningia speciosa* 'Thad's Gas Planet') — I made this cross hoping for 6 lobed red nodding flowers with fragrance. The pollen parent was a large dark red crossed onto a 6 lobed lavender nodding flower.  
JS 17-10 (*Sinningia speciosa* 'Bristol's Good Morning' x *Sinningia speciosa* 'Thad's Gas Planet') x (*Sinningia speciosa* 'Bristol's Good Morning' x *Sinningia speciosa* 'Pedra Lisa') — This cross has a large white nodding flower crossed onto a peloric red. I was hoping for red flowers with white on the outside.  
JS 17-11 (*Sinningia speciosa* 'Sentsational Pepperpot' x *Sinningia speciosa* 'Pedra Lisa') x (*Sinningia speciosa* 'Sentsational Pepperpot' x *Sinningia speciosa* 'Thad's Gas Planet') — A peloric red onto a blue nodding flower that had a strong scent. I was hoping for a fragrant red.  
JS 17-12 *Sinningia speciosa* 'Sentsational Pepperpot' x (*Sinningia speciosa* 'Thad's Gas Planet' x *Sinningia speciosa* 'Pedra Lisa') — This cross is the batch of seed that 'Rock Loves Dale' came from.  
JS 17-13 (*Sinningia speciosa* 'Bristol's Good Morning' x *Sinningia speciosa* 'Pedra Lisa') x Peloric White — I bought a commercially produced peloric white S. *speciosa* and crossed it onto a good red, hoping for some combination of red and white.  
JS 17-14 (*Sinningia speciosa* 'Hungarian Rose Spot' x *Sinningia* 'Dales Coral Fiesta') x self — Yes, Dales Coral Fiesta, a miniature *sinningia* crossed onto a S. *speciosa* from an unknown Hungarian seed source. This seed is

untried and spontaneously generated a seed pod with no help from me. I expect various shades of pink and coral petals with blue spots. Most of the flowers will have white throats.

JS 17-15 *Damrongia orientalis* x self

JS 17-16 *Gesneria christii* x self

JS 17-17 *Sinningia cardinalis* (pink) x self

JS 17-18 *Sinningia defoliata* x self

JS 17-19 *Sinningia gesneriifolia* x self

LTL 10-02 *Eucodonia* hybrid mix

### **Susan Turner, New Zealand**

ST 04-08 *Streptocarpus* large flowered pink hybrid x (*S. vandeleurii* x self)

Some further information from Susan: My *Streptocarpus candidus* has no violet markings. It is plain white with yellow throat markings and is honey scented. *Streptocarpus Ulysses* x Holiday Hybrid: My plant was grown from seed obtained from the GHA Seed List in 1989. The cross was made by Darrell Trout and I'm still growing one of the original plants. It has lavender flowers with attractive throat markings. It's different from anything else I grow.
