

Savanna of Belize

Eriocaulaceae of the Belizean Savanna

Zoë Goodwin & German Lopez

Photos by Z. A. Goodwin & G.N. Lopez unless otherwise stated. Produced by: Z. A. Goodwin, work supported by the Darwin Initiative. V2011/08

1 *Eriocaulon fuliginosum*
Habit

2 *Eriocaulon fuliginosum*
Silver sheen to black infl.

3 *Eriocaulon fuliginosum*
Lvs & sheath glabrous

4 *Eriocaulon fuliginosum*
Larger individual

5 *Eriocaulon fuliginosum*
Fenestrated lvs

6 *Eriocaulon kinlochii*
Fenestrated lvs

7 *Eriocaulon kinlochii*
White inflorescence

8 *Paepalanthus lamarckii*
Habit

9 *Paepalanthus lamarckii*
Stem & pilose hairs

10 *Paepalanthus lamarckii*
Grey infl.

11 *Paepalanthus lamarckii*
Long hairs on lvs

12 *Paepalanthus gentlei*
Habit

13 *Paepalanthus gentlei*
Elongate infl.

14 *Syngonanthus bartlettii*
Recurved lvs & sheath

15 *Syngonanthus bartlettii*
Inflorescence

16 *Syngonanthus hondurensis*

17 *S. hondurensis*
Straight lvs

18 *S. hondurensis*
Inflorescence

19 *Syngonanthus lundellianus*

20 *S. lundellianus*
Habit

Please note that not all Eriocaulaceae species listed for Belize are present in this photoguide please check www.eeo.ed.ac.uk/sea-belize for updates.
